- Access, Authorization and Authentication of Digital Web Information
- Role, Relevancy and Research: Online Legal Databases

*Above themes are only illustrative but not exhaustive. Paper presenters may select the related topics covered under the main themes.*

This International Conference on Access to Legal Information & Research in Digital Age is being organized to come up with a vision for next generation law libraries and information centres in order to upgrade standards of legal education and research. The Conference provides an international platform to all stakeholders to address all issues of importance for the betterment of legal research in the digital age. The scope of the Conference will be Knowledge Sharing, ICT Management, Digital Repository Management, E-Teaching, E-Tutorials, Stronger Library-Faculty Relationships, and Free Access to Law Movement Initiatives around the world. The Conference will provide an opportunity to identify the strengths and gaps in disseminating legal information in the era of digital technology and to suggest new management models mechanisms, policies, and national and international programmes for reshaping law libraries into next generation libraries for quality and standard legal education.

- Identifying future vision for next generation legal education research programmes in support of advanced information and communication technology.
- Correlating open access to law movement around the world for minimizing the gap between information rich and information poor recipients.
- Interfacing between law universities and institutions promoting the rule of law
- Emerging techniques and Web retrieval tools and strategies in promotion of legal education and research.
- Planning for foundation of **"Association of SAARCLAW Libraries."**
