## **General Guidelines**

- Your list of references should begin on a separate page, with the title "Works Cited".
- Arrange entries **alphabetically**, using the last name of the author. If no author is given, alphabetize by the title, eliminating any initial A, An, or The.
- Begin each entry at the left margin. Indent the following lines one-half inch from the left margin.
- **Double-space** within each entry, and between each entry.
- Follow carefully the punctuation, underlining, and capitalization in the examples.
- Shorten the name of the publishing company by eliminating articles (A, An, or The), business abbreviations (Co., Inc., Ltd.), and descriptive words (Books, House, Press). However, when citing a **University Press**, add the abbreviation "**UP**" (Ohio State UP). If the publisher's name is the name of one or more persons, cite the first surname only (Abrams).

## **In-Text Citation**

## **Parenthetical references**

- The list of Works Cited at the end of your paper tells your reader what resources you used to write your paper. **To avoid plagiarism** or taking credit for ideas that are not your own, you must also indicate in the text of your paper precisely what is borrowed from a source and where to locate that information in the source.
- The **in-text citation usually appears in parentheses** and corresponds directly to an entry in your list of Works Cited.
- The **author's last name and the page number** are usually enough to indicate the location in the source.
- If the author's name is used in the sentence, do not repeat it in the citation.
